## **Introduction**

*From its inception in 1947, Ambassador College has dared to be different in those areas where education has become decadent.*

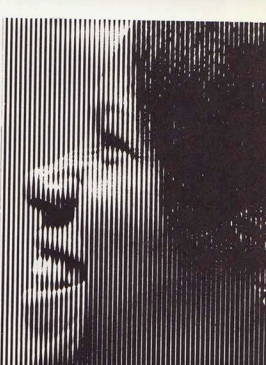

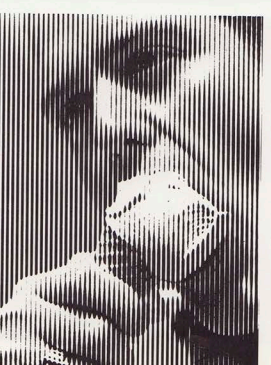

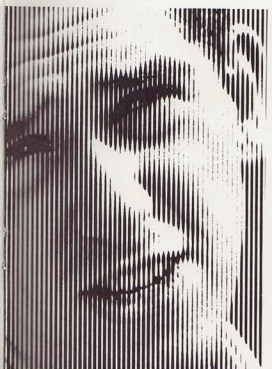

*The world today is in an acute crisis of sickness. The world is the product of its leaders. The leaders are the educated. The educated are the product of the world's decadent education, in which there has been a tragic Missing Dimension. Ambassador pioneers in providing that Missing Dimension. This institution, therefore is unique.*

*Ambassador College recognizes the significant relationship between world conditions and education, and the responsibility of education for those conditions.*

*For every effect there has to be a CAUSE. And the CAUSE of all world ills is simply this Missing Dimension—the very basics of knowledge. Those basics are these: the knowledge of the true meaning and purpose of human life on this earth; a discernment of the true values as distinguished from the false; and a knowledge of THE WAY to peace, happiness, prosperity, universal well-being. Every wail of human woe, every pang of pain and suffering, every unhappiness, state of wretchedness, every evil that has beset this world has resulted from the violation of THIS WAY. Ambassador College knows, teaches, and puts to living practice, this RIGHT WAY. The effect of putting this right CAUSE into practice has been three oases of bubbling-over happiness in a worldwide desert of unrest, discontent, unhappiness, and evils.*

*Ambassador College pioneers today in the true education of the world tomorrow. This education is the foundation for a successful life which is an inspiration to others.*

## A MUSICAL PARADE

Miss Sue Endriess

You are most cordially invited to attend  
the formal Women's Club Tea  
to be held on the third floor  
of Grove Terrace  
on Thursday, the eighteenth of January  
from two o'clock until four-thirty

# Activities

**Garner Ted Armstrong in person...**

The Personal Appearances of Garner Ted Armstrong have proven to be a new and unique method of reaching tens of thousands in a dynamic and straight-forward manner with the good news of the World Tomorrow.

Mr. Armstrong presents a different and powerful message each night to the eager audience. Timely subjects about the vital issues of our time such as "Is This the End Time?", "Is Sex Sin?", and "Is Uncle Sam Sick?" are examples of the many thought-provoking messages from which thousands have found comfort, hope, and promise in a world devoid of all three.

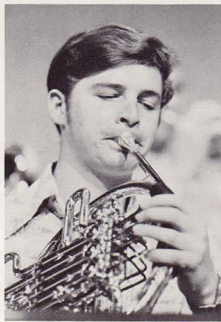

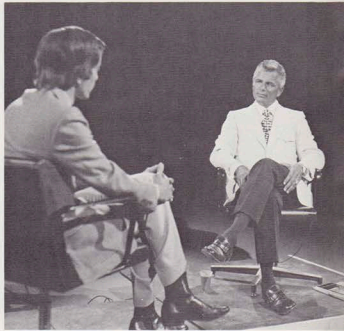

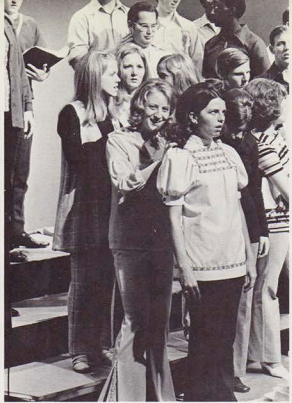

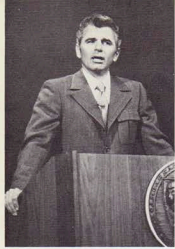

The obvious scope of an extended series of such appearances has forced Mr. Armstrong to ask others to assist him by carrying on other personal appearance tours simultaneously with his own. These additional tours are experiencing the same outstanding results as the original campaign. Many people have been turned away as the country's most beautiful auditoriums have been filled to overflowing. New attendance records have been set in several major cities.

The Ambassador College Band and Singers provide the musical setting. These bright young talented musicians

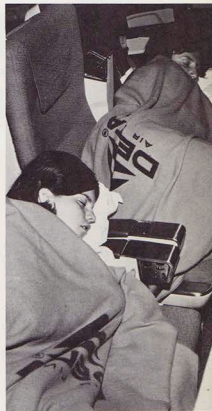

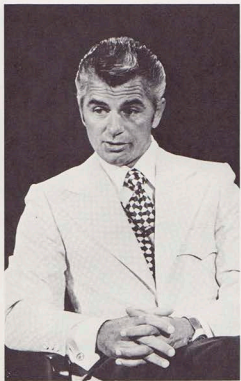

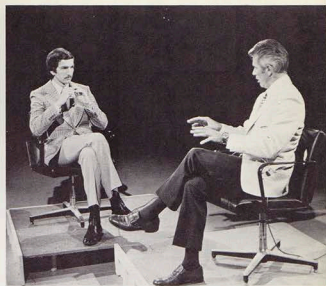

combine the best musical abilities from two Ambassador College campuses (California and Texas) to form the versatile group. Their music is both uplifting and entertaining.

The pictures on the following pages are only a brief sampling of the events and activities from Calgary, Canada to St. Petersburg, Florida and from Richmond, Virginia to Dallas, Texas.

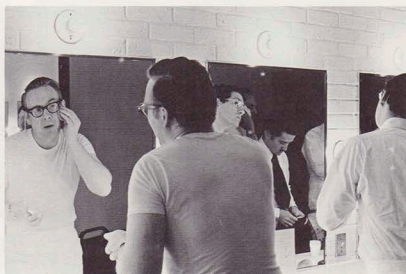

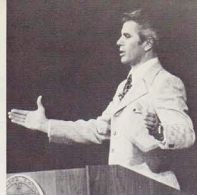

In 32 productions the total audience has numbered more than 90,000. The music is inspiring, the message hard-hitting—the total impact: tremendous!

The longest night is over. There is a massive job of clean-up that yet remains after the parade. But the campus has weathered the invasion successfully. Security reports no major problems. It looks as if no one has been hurt, and no property has been damaged.

## The Ambassador College Auditorium

With anticipated completion and opening scheduled for early 1974, the Auditorium-Concert Hall will be a crowning jewel in the master plan of the Pasadena Campus. The multi-use Auditorium will accommodate 1250 people in mainfloor and balcony seating for programs ranging from lectures and meetings to all types of musical and

dramatic presentations. Total area of the Auditorium will be 52,000 square feet, including a full working stage, orchestra pit, elevator, demountable orchestra shell, rehearsal rooms, dressing room and green room to be used for live performances. A fully equipped projection room, sound and light control facilities, along with conduits for closed-circuit TV

complete the mechanical installation and auxiliary facilities. Ranking in quality of materials, completeness of stage rigging, lighting and performance facilities with the most advanced concert halls built in the U.S. during the last decade, the new Auditorium will be one of the most elegant formal public buildings of its type ever constructed.
